

5 O'clock Edition!  
SEASON FOR SEALS.

Astonishing Activity  
in Diplomacy.

THE PRESIDENT'S PROCLAMATION.

The Fleet to Fly to Behring  
Sea.

Commons Listen to an Apology  
for the Prince.

Closed Season for Seals.

WASHINGTON, June 15.—The agreement for a closed season in Behring Sea was signed this morning.

In order to facilitate such proper inquiries as Her Majesty's government may desire to make with a view to a presentation of the case that an agreement for arbitration may be arrived at, it is agreed that suitable persons designated by Great Britain will be permitted at any time, upon application, to visit or to remain upon the seal islands during the present sealing season for that purpose. Signed and sealed in duplicate at Washington this fifteenth day of June, 1891, on behalf of their respective governments, by William F. Wharton, Acting Secretary of State of the United States, and Julian Pauncefote, Envoy extraordinary and Minister plenipotentiary. Now, therefore, be it known that Benjamin Harrison, President of the United States of America, has caused said government to be made public, to the end that the same and every part thereof may be observed and fulfilled, with good faith by the United States of America and citizens thereof. In witness whereof, I have hereunto set my hand and caused the seal of the United States to be affixed.

The arrangement indicated in the above proclamation has been carried to completion with a degree of speed without precedent in the history of the State Department, and the cable has been relied upon to an unwonted extent. The agreement was signed this morning by Sir Julian Pauncefote and Wharton, and the Presidential proclamation followed as quickly as it could be prepared.

The Navy Department has been advised of the progress and necessities of the case, and orders are now in preparation for the immediate despatch of probably two naval vessels from San Francisco to Alaska, where they will assist three revenue cutters in the task of driving off poaching and sealing vessels. It will be noticed that the agreement authorizes the United States vessels to seize the offending British vessels, which, however, are to be turned over to the British authorities for trial, and this feature of the agreement is expected to prove of great value in the pressing emergency that is held to exist of clearing out the law breaking vessels before irreparable damage can be done to the seal fisheries.

Raging Red River.

ARKANSAS CITY (Ks.), June 15.—A gentleman just arrived from Greer county, in the extreme southwestern part of Indian Territory, says the Red river and its north forks have been out of their banks for a week, completely hemming the people in and cutting off all communication with the outside world. People everywhere are suffering. Over half of the wheat crop is entirely ruined and the corn and oats nearly all killed.

A cloud burst inundated Frazer, ruining every merchant's stock of goods and compelling people to flee for their lives. Two persons were drowned in town and three in the country. Along Turkey Creek and Salt Fork, a dozen or more houses were washed away. The damage done in that county alone will exceed \$500,000.

A Victim of Rheumatism.

BERLIN, June 15.—The illness from which Bismarck is suffering now is said to be rheumatism of the spine. He has been confined to his bed for three days past and has been suffering acutely.

Four Drowned.

OSCAR RAPIDS (Iowa), June 15.—A. D. Cooley and C. H. Anderson of this city and two young ladies living at Rockford were drowned at the latter place last evening by the capsizing of boat.

President's Proclamation.

WASHINGTON, June 15.—The President to-day issued a proclamation stating that an agreement for a modus vivendi between the government of the United States and the government of Her Majesty's Majesty in relation to the seal fisheries in Behring sea was concluded on the fifteenth day of last June. It reads: "For the purpose of avoiding the irritation of differences and with a view to promote the friendly sentiment of the questions pending between the two governments touching their respective rights in Behring sea and for preservation of the seal species, the following agreement is made without prejudice to rights or claims of either party. Her Majesty's government will prohibit until May next seal killing in that part of Behring sea lying eastward of the line of demarcation described in Article I of the treaty of 1867 between the United States and Russia, and will promptly use its best efforts to insure the observance of this prohibition by British subjects and vessels.

Second.—The United States government will prohibit seal killing for the same period in the same part of Behring sea and on the shores and islands thereof, property of United States in excess of \$7,500 to be taken on the islands for subsistence and care of natives, and will promptly use its best efforts to ensure the observance of this prohibition by United States citizens and vessels.

Every vessel or person offending against the prohibition in said waters of Behring Sea outside of ordinary territorial limits of the United States, may be seized and detained by the naval or other duly commissioned officers of either of the high contracting parties; but they shall be handed over, as soon as practicable, to the authorities of the nation to which they respectively belong, who shall alone have jurisdiction to try the offense and impose penalties for the same. Witnesses and proofs necessary to establish the offense shall also be sent with them.

Apology for the Prince.

LONDON, June 15.—Stanhope, Secretary of State for War, replying to-day in the Commons to a question put by William Summers (Gladstone Liberal) in regard to the baccarat scandal, said Sir William Gordon Cumming was the chief person who had broken faith, because he did not report the case to his commanding officers. If the offense was committed by any other person it could only have consisted in advising him and pressing him to take a different course than that laid down by the army regulations. Of the three officers concerned General Williams was a retired officer of the army, and was therefore not subject to the regulation; but two Field Marshals, the Prince of Wales and Berkeley Leavitt, undoubtedly were. The former, said Stanhope, at looking back at all the circumstances of the case, saw the error of judgment committed. Lieutenant Leavitt, on the other hand, said Stanhope, had written a letter to his commanding officer expressing the deep regret that he had not acted in accordance with the army regulations. Consequently, said the Secretary of War in conclusion, it was not proposed to take any further action in the matter.

Premier of British Columbia.

WINNIPEG, June 15.—John Robson, Premier of British Columbia, passed through Winnipeg yesterday en route to Ottawa where he goes to discuss with the Dominion authorities, matters of great importance at present pending between the Central government and that province. One question that he proposes to discuss is that of sealing, and the manner in which British Columbia interests are affected under the new sealing law which has just passed the British House of Commons. To interfere with sealers this year would, Robson holds, be ruinous. Of other important subjects, Robson said, is the settlement of the Alaskan boundary.

Rev. Sam. Small Says.

PHILADELPHIA, June 15.—With reference to the report telegraphed from Denver Friday last that the Rev. Sam Small says the Colorado conference is misrepresented and himself damaged by the incorrect report that it dismissed or expelled him from the Methodist ministry, he says that having resigned the Presidency of the Utah University, he asked to be reported to the Colorado conference and there discontinued from further connection. The vote in the matter was purely formal and in no sense penal or condemnatory.

Keystone Bank.

PHILADELPHIA, June 15.—In regard to the Comptroller's statement that in Examiner Drew's report he did not find the true condition of the Keystone Bank, Drew says he is confident they gave as accurate a showing as could be made at the time.

Swiss Railway Accident.

BERNE, June 15.—The total number of people who lost their lives yesterday by the collapse of the railroad bridge on the Moenchstein and Bale railroad is now placed at 120, with hundreds more or less injured. Another account of the disaster says 57 bodies are already recovered and that 40 persons are severely wounded. It is feared many others are dead whose bodies have not been found. The victims are mostly leading citizens, of Bale and its neighborhood.

Scenes which were heartrending were witnessed in Bale to-day when the bodies of a large number of the victims were taken there by sorrowing relatives, for representatives of a majority of the best families of Bale were among the killed and injured. Several families were practically wiped entirely out of existence by the disaster, the full extent of which is not known even at this hour. Bale is now a scene of bitter desolation and mourning. Nearly every family in the city may be said to have been touched by the calamity, for those who have not actually lost one of their members have dear friends or acquaintances either among the dead or among those who are mourning the loss of relatives.

Those who are wounded include so many serious injuries that almost each hour records another death or another case in which physicians give up all hope of saving the patient's life. Everything that the local and municipal authorities can do to help the wounded, recover the dead or assist those in distress is being done. Clergymen, priests and physicians, a large force of troops and firemen and scores of vehicles to be used as ambulances have been despatched to the scene of the wreck. Troops and firemen are busily engaged in removing the wreckage, recovering the bodies of the dead and transporting the wounded to their homes or to the hospitals. Physicians and ministers of the gospel are doing noble work in administering to the wounded and comforting the bereaved.

The neighborhood of the collapsed bridge now resembles in many features the after episodes of battle, the closing acts of some warlike struggle. Still more so was this the case last night when the river banks were illuminated by huge fires and troops of firemen working unceasingly dragging the river for dead, nursing the wounded and keeping guard around the spot where it was not thought advisable to admit crowds of people who had flocked to the scene from every village in the canton. The work of the soldiers in dragging the river is greatly impeded by the fact that the stream is considerably swollen by the melting snow. Thus the waters carried away many bodies and several days' dredging will be required before the soldiers' work will be completed. That somebody is to blame for the accident, nobody doubts, but people are so taken up with their present duty that the question of blame is postponed for the present from official consideration.

Anti-Semitism.

LONDON, June 15.—The German professors, Virchow and Dommsion, accuse the German anti-semitism as being the origin of the Russian persecution of the Jews. A dispatch from Odessa says many Baptists and Stundists have been banished from the Caucasus and deprived of their children. The latter are to be educated in the orthodox faith. It is reported that similar acts have been committed in other parts of the country.

Rothschilds Buys Anacoada.

CHICAGO, June 15.—A special dispatch from Butte City, Montana, says August Belmont, as agent of the Rothschilds, has been instructed to close a deal by which the latter will, September next, take possession of the great Anacoada copper mine. The price to be paid is stated at between twenty and twenty-five million dollars. The purchase by the Rothschilds is said to be for a foreign syndicate.

Itata Returning.

WASHINGTON, June 15.—An official cablegram from Admiral McCann at Iquique, Chili, to the Secretary of the Navy, announces the Itata sailed under convoy of the Charleston Saturday night for San Diego, Cal. It is not probable that she will be forced as her machinery is in bad shape, so it is expected a full month will be occupied in the homeward voyage.

Forest Fires.

ST. JOSEPH (N. B.), June 15.—There were several showers on Saturday and Sunday night, but not sufficient rain fell to extinguish the forest fires which have been raging in various parts of the Province. Considerable destruction of property has occurred within a short distance of this city.

Collision at Port Costa.

SAN FRANCISCO, June 15.—The north bound Los Angeles express due in this city at 11:15 this forenoon, collided with a freight train in the switching yards at Port Costa shortly before 10 o'clock. The crash was a serious one, the locomotives of both trains being badly smashed and the mail and express cars of the Los Angeles train telescoped. A brakeman named Jordan on the freight train was killed and engineers More and Abbott both injured, and both firemen hurt. It is reported that a number of passengers were injured but no details are obtainable.

The wreck occurred south of the Port Costa shipping yards and while the Los Angeles passenger was approaching the station. A gravel train, consisting of fifteen cars, was on the main track and the passenger train crashed into it while moving at a high rate of speed, though an attempt was made to stop the train by the air brakes. Two men are reported killed and five or six passengers wounded.

OAKLAND, June 15.—The collision occurred on the single track between Port Costa and Martinez, near the coal bunkers of the Black Diamond Coal Company. The Los Angeles express was going toward the pier and gravel train carrying gravel for the new San Ramon branch was running toward Martinez. On account of a double curve in the road, evidently neither engineer saw the other train approaching until just before the collision. The engines came together with a terrific crash and both were badly damaged. The mail car of the express train was smashed, but no other cars of the express train were damaged. Ten flat cars were piled up.

Wm. J. Jordan, a brakeman on the gravel train, was sitting in the cab with the engineer and was pinned down by the engine and killed. C. H. Spurgeon, mail clerk, was badly injured and died on the train on the way to Oakland. The body is at the Oakland morgue. James Abbey, engineer of the Los Angeles express, had his hand slightly injured. Carl Partridge and W. A. Daggett, mail clerks, were bruised and burned and taken to San Francisco. Fireman E. J. Farley of the express was pinned under the debris with a bad scalp wound, bruises of body and internal injuries and was brought to Wolsey's hospital, Oakland, vomiting blood, very severely wounded, but may recover. Division Superintendent Wilder says he does not know who is to blame, but the gravel train should have been held at Port Costa until the express passed.

A Chicago Strike.

CHICAGO, June 15.—A strike of architectural workers for a reduction of hours to eight per day and an increase of pay to 30 cents per hour was inaugurated this morning. About 1,200 men are out, and the iron and other ornamental metal works upon many large buildings in course of construction is at a standstill and shops in which the work was turned out are shut down.

Yacht Sunk.

NEW YORK, June 15.—Early this morning a tug-boat ran into and sunk the yacht Emilia. Frank Jenkins and Wm. H. Hoban were drowned. A party of eleven were on board the yacht. They had been on a pleasure trip up the Hudson and were returning home when the accident occurred. The pilot of the tug-boat has been arrested.

TELEGRAPHIC BREVITIES.

At Cornwall, on the Hudson, N. Y., Fritz Emmett, the actor, died to-day of pneumonia.

At Baltimore, Samuel Straus of Mulster has filed a deed of trust for the benefit of his creditors. Assets, \$50,000; the liabilities are supposed to be largely in excess of the assets.

Bravery Rewarded.

The following pretty little story has just started from Boston, from whence comes a special telegram, which says: Clarence J. Hunt, a brakeman on the Old Colony Railroad, has fallen into luck. Some time ago he saved an unknown lady from a passing train. The lady turns out to have been Mrs. Mark Hopkins, formerly the wife of the California millionaire and now the wife of Mr. Searle, the New York millionaire. Mr. Searle found Hunt out and has bought the latter a grocery store at Methuen all stocked with goods as a reward for his bravery.

Please Describe.

The following from the *Chloride Bell* awakens a little curiosity. Please describe it.

The *Bell* says: The "angry tree," a woody plant, which grows from ten to twenty-five feet high and was formerly supposed to exist only in Nevada, has recently been found in Arizona, says the *Omaha Bee*. If disturbed this peculiar tree shows every sign of vexation, even to ruffling up its leaves like the hair on an angry cat, and giving forth an unpleasant, sickening odor.

GRAND LODGE, I. O. O. F.

A special car was attached to the overland train at this point on Sunday morning to carry the delegates to the Grand Lodge and Encampment of the I. O. O. F. at Winnemucca, which convenes to-day. About sixty delegates were in the car and were principally from Virginia City, Carson, Dayton and Reno. The following named were from Virginia City: Virginia Lodge—Robert Hires, Jacob Young, Wm. Pennison, F. M. Huffaker, M. E. Cavin, Joe Josephs, J. P. Woodbury, C. M. Brown, G. Haas, A. B. Stoddard, W. H. Hancock, J. B. Marshall, Wm. Sutherland, H. B. Fay, A. L. Edwards, C. E. Mack, R. Korman, C. H. Crandall. Nevada Lodge—L. Gingenheim, Jacob Nicholls, L. Lobenstein, J. W. Thomas, R. Rautub, T. Tally. Those from Reno were J. J. Becker, P. G. M.; R. C. Lear, S. R.; S. Jacobs, District Deputy G. M.; and R. B. Borden, N. J. Bell, F. O. Updyke, E. H. Schuler, E. Lachman, Al White, J. V. Pears and N. B. Kendall.

"The Limited Mail."

The Limited Mail Company will appear at McKissick's Opera House Wednesday evening. It is seldom that a company of this one's reputation favors Reno with a performance, and will fill the Opera House to overflowing. Engage your seats at once or you won't get in, for the house is sure to be crowded. It takes but a minute to step into Hodgkinson's and the thing is done.

MARRIED.

LAMMON—KING.—In Virginia City, June 10, 1891, by Rev. J. A. Brady, Geo. L. Lammon and Miss Nellie King.

NEW TO-DAY.

Dramatic Event of the Season!

McKISSICK'S OPERA HOUSE

JOHN PIPER.....LESSEE.

This extraordinary engagement limited to one performance.

WEDNESDAY, JUNE 17th, 1891.

ELMER E. VANCE'S

Great Realistic Railroad Comedy Drama,

The Limited Mail

Positively and undeniably the most stupendous and wonderful of this realistic age.

The Magnificent and Marvelous

Scenic and Mechanical Effects!

Requiring two specially designed private cars for its transportation.

A GREAT STAR CAST.

SUPERB AND ENTRANCING MUSIC.

SPARKLING DIALOGUE.

SEE

The flight of the Limited Mail.

The thrilling wreck scene.

The awe-inspiring electrical effects.

The realistic saw mill episode.

The marvelous telegraph scene

And, withal, as full of fun, pure, unadulterated fun, as the toothsome shade of bones.

## 5 O'CLOCK EDITION

THE people of this State are more prosperous than those of almost any other section of the country and that fact is coming to be known now. Even those in the much-boomed section of southern California are dissatisfied and are looking this way. A letter was received by the Board of Trade a few days ago from a gentleman now living at Los Angeles who is desirous of coming to Nevada with a colony of disappointed Easterners who have not found what they were looking for in southern California. This morning's train brought to Reno two or three gentlemen from Modesto, Cal., who are seeking a new field and came to Reno to see what we have here. Mr. Fulton's letters in the New York Tribune are attracting much attention and the Board of Trade is receiving letters of inquiry daily. Hardly a day passes that the GAZETTE does not receive from one to three letters from people who are dissatisfied with their lot in other places and are anxious to know the truth about Nevada. A colony from British Columbia want to come here. We are sending several copies of the GAZETTE free to gentlemen of means in the hope of attracting their attention this way and are in correspondence with a gentleman living at Albany, N. Y., now brought about through the GAZETTE. If the people of this county would assist us in the good work we have undertaken we would get returns that much quicker; but that there are brighter days coming we have not the slightest doubt.

SIR CHARLES TUPPER believes that the desirability of the establishment of a United British North America would urge statesmen to overcome all difficulties in the way and then Newfoundland would be embraced in the confederation. The disgust excited by Canada's hostility to the completion of a reciprocity treaty between Newfoundland and this country is not likely to hasten that colony's demands for admission to the confederation.

THE total amount of money in circulation in the United States on June 1st was \$1,504,278,509, against \$1,431,193,651 a year ago, an increase during the year of \$73,084,855. This shows a gain of more than 5 per cent, and business has generally felt the stimulus of the administration's financial policy.

AMERICAN locomotives are in demand abroad. In the past nine months 126 of them, valued at \$1,000,000, were exported. The enterprise of our manufacturers, the genius of our inventors and the skill of our mechanics command admiration all over the wide world.

THE GAZETTE has been informed that before going away last week Mr. Newlands told several gentlemen that he would be a candidate for Congress before the next Republican State Convention. Certainly no better could be found.

MR. BARNES OF NEW YORK.

This Company to Favor Reno with Its Production To-Night. The Mr. Barnes of New York Company will appear tonight at McKie's Opera House, and as it is one of the finest plays on the American stage today, is sure to draw a crowded house. The San Francisco Call says of it:

"The drama was neatly and most effectively mounted. The points in the railroad scene, where Mr. Barnes starves the young English woman, Enid Anstruther, into a recognition of his usefulness, that leads eventually to a warmer feeling, were conveyed by a judicious lowering of the lights, and in the obscurity changing the scenery so that all the stations on the railroad from Paris to Nice were successively shown without lowering the curtain. Miss Enid was played nicely and Miss Blanche as the suppressed girl of 14, Maude Charlis, was an amusing torment alike to Mr. Barnes and Miss Anstruther. In Miss Emily Rigg, who assumed the role of Marina Paul, was found an actress of the same type as Miss Jefferys-Lewis in her better days; the same graceful and lissome figure, the same intensity of manner and modulated but forcible enunciation. Her scene over the dead body of her brother where she takes the vow of the vendetta, to follow his slayer through the world, is strong in every part, without being overdone, and the same may be said of her subsequent work."

## LOVE AND RED TAPE.

Brazil a Poor Place for Courtship  
Young Couples.

Marriage a Curious Combination of Complicated Questions, Revenue Stamps and Difficulties in General.

An American lady resident at Rio Janeiro writes of the difficulties attending wedlock in Brazil. This is her story of it, says the New York Journal:

"They were a lovely young couple, just the embodiment of Burns' 'Oh, happy love, where love like this is found.' He, a rising young man with good prospects, had seen her grow up and develop into a lovely woman as a rose in a tropical garden. How could he help loving her? And she—she returned his love; and her father and mother were willing, nay happy in the prospect of their darling's complete happiness. And why weren't the couple happy? Why didn't they go and get married?"

This lovely young couple, "two souls with but a single thought," and all that, lived in Rio de Janeiro, one of the most beautiful cities in the world, where all nature seems to speak of love; where the hills, with all the luxuriance of their tropical verdure, reflect their glory in the deep blue of the bay and all nature joins in a grand anthem to the Creator of the universe; in this beautiful place even the creature, man, has made things difficult.

In the good old days in Brazil when a young man saw a pretty girl and fancied her he got his godfather to confer with her godmother, and if they were agreed they had a "festa" for the betrothal; then the bans were published three times, and then they were married and happy. But not so in these enlightened days of the republic, as our young friends found. There was the civil marriage, which is obligatory whether there is a religious marriage or not.

Said John to Lucy as they were riding along the lovely bay one beautiful day in July: "We will be married quietly next week and remain at home for a time and take a trip later in the year when the warm season comes on." Her answer was a smile of assent, which he understood. It's remarkable how few words a pair of lovers need. Then he went on: "I must get the necessary papers for the civil marriage, but I don't suppose that will take much time."

It is well that there are young people who have the hopefulness of youth. So he went, and the first thing that amazed him was that the authorities objected because they both lived in the same house (the young man boarded with her family).

"Well, I can call my office my residence," said he.

"That is better," said the judge.

"Now, where is your certificate of baptism?"

"I haven't any," said John. "I never was baptised."

Here was a difficulty that the judge had not foreseen, not being accustomed to the heathenish ways of North Americans. Who was your father? Who your mother? Are they living? Of what did your mother die? (on being told that she was dead). How long do you expect to live in Brazil?

These and many other questions had to be testified to by witnesses before a notary public, and dear Lucy was obliged to have one paper witnessed and signed declaring that she was willing to marry John—the idea of such a thing!—also papers from her mother and father declaring that they, too, were willing; also who they were, what their mothers and fathers were, what their business was, etc. And thus the days lengthened into weeks and the weeks into months, and still the proper papers were not finished, and October came and still they were not married.

"Anyway, our case is not so bad as Smith's," said John, as they were returning from the judge's house for the tenth time, having found him out or occupied.

"What is that?" asked Lucy, immediately interested.

"His bride elect came out from England to him, and was obliged to return in order to get the necessary papers." "Oh, how dreadful," said she, and continuing: "I am glad I am not in Miss Brown's place. You remember seeing her, don't you? She is to marry a young man eight years her junior, and only think how embarrassing to have to produce witnesses to declare that she is thirty-three." And Lucy really looked sad, for she is just seventeen, and cannot realize the idea of anyone's wishing to marry at three and thirty.

"But the hardest of all is the case of Senhor Jose," continued John, "for he wished to marry that pretty young widow, and the complications are greater still, for not only must she have all the papers from father and mother of birth and baptism, of willingness (?) to marry, but a physician's certificate of her late husband's death, and, if it were possible, a testimonial from him."

Everything comes to an end in this life, and after three months of arranging papers, making visits to the judge, the notary public and the consul, the wedding day came, and there were the orange blossoms, the wedding march, the friends, everything a la regulation, and the judge, with a robe and collar of ermine, and his secretary, were at hand, and when the bridal pair arrived at the chancel the secretary wrote and wrote, as though he were writing their biography, and they signed and signed, father, mother, bridesmaids, best men, near friends, officials, etc., and then came the religious ceremony and it was done.

A great fuss about a small thing you say. Granted, but is it a small thing? What sort of brain is it that has evolved such a complication, and how are the masses to be benefited by any such law? How are foreigners to be encouraged to make their home in a country where they are hedged about by red tape and circumlocution at every point? There are many noble, patriotic hearts in this lovely country, but they have much to learn yet of republican simplicity and dispatch.

TO OBTAIN the waste of steam in steam hammers an improvement has been introduced in fitting the hammers with two pistons of different diameters, compounding them, in fact.

## BLINDNESS IN ENGLAND.

Causes and the Extent to Which It Prevails.

Out of the thirty-two millions of subjects over whom her majesty now reigns as queen of Great Britain, taken in round numbers, about thirty-two thousand are said to be blind. This estimate, however, says the Edinburgh Review, must be understood to include a considerable number of those partially deprived of sight, as, during the last forty years, the ratio of blind persons in every million has slowly but steadily fallen from ten hundred and twenty to eight hundred and nineteen, a decrease of one-fifth of one per cent. The smallness of this decrease, when so much has been done in other directions to lessen the ravages of disease, arises from two facts—first, that in a considerable number of cases blindness is the result of some untoward accident—stone-throwing, a splinter of broken glass, a sudden blow or fall, and secondly, and in a still larger number of cases, is the result of neglect, ill-treatment or exposure to cold when the victim was but a few days or weeks old. So large a percentage of blindness, indeed, is due to this cause that the royal commissioners, while noting it, suggest a special remedy, viz., the employment of trained midwives among the poor, and the careful use of perchloride of mercury for washing the eyes.

Thirty per cent. of all the cases in schools and asylums are due to purulent ophthalmia, for which this preparation is found to be the best remedy, at once cheap, harmless and easily procured, a point of vital importance when it is remembered that "one or two days make all the difference between saving and losing vision." The number of children actually blind from birth is comparatively small, but that of those who afterward become blind from accident or disease goes on increasing; and it is on these two latter points, therefore, that legislation is demanded and can do good. In such trades as are found to be directly injurious to the sight, as iron ship building, granite work, grinding of cutlery, etc., where a chance spark or splinter is too often fatal, the use of some special covering for the eye might be made compulsory, while in the case of infantile disease preventive measures are still more easily within reach.

## A MAGNETIC PLANT.

An Indian Plant That Shocks the Human System.

There has been discovered in the forest of India, according to The Week's Sport, a strange plant, which possesses to a very high degree astonishing magnetic powers and which is a great source of annoyance to hunters and tourists. It has been named the Philarea electrica. The hand which breaks a leaf from this plant immediately receives a shock equal to that which is produced by an induction coil. At a distance of six yards a magnetic needle is affected by it and will be deranged if brought near. The energy of this singular influence varies with the hour of the day. All powerful about two o'clock in the afternoon, it is absolutely annulled during the night. At times of storms its intensity augments to striking proportions. During rain the plant seems to succumb, and bend its head during a thunder shower. It remains there without force or virtue, even if one should shelter it with an umbrella. No shock is felt at that time in breaking the leaves and the needle is unaffected beside it. The leaves, by any chance seen by birds or insects alight on the electric plant; an instinct seems to warn them that they will find certain death there. It is also important to remark that where it grows none of the magnetic metals are found; neither iron, cobalt nor nickel—an undeniable proof that the electric force belongs exclusively to the plant.

## CAUGHT A TARTAR.

Unpleasant Experience of a Rector Who Rebuked His Daughter.

A London paper relates a queer incident that happened in a Welsh church the other Sunday. The rector began to rebuke his people in severe terms for not attending Sunday morning service, and impartially included his own daughters in the rebuke. "When you go to church," he said, "you must not be late. You must not be noisy. You must not be talking. You must not be looking at the clock. You must not be looking at the minister. You must not be looking at the other people. You must not be looking at the door. You must not be looking at the window. You must not be looking at the street. You must not be looking at the sky. You must not be looking at the ground. You must not be looking at the water. You must not be looking at the fire. You must not be looking at the sun. You must not be looking at the moon. You must not be looking at the stars. You must not be looking at the clouds. You must not be looking at the rain. You must not be looking at the snow. You must not be looking at the wind. You must not be looking at the weather. You must not be looking at the time. You must not be looking at the place. You must not be looking at the people. You must not be looking at the things. You must not be looking at the world. You must not be looking at the life. You must not be looking at the death. You must not be looking at the resurrection. You must not be looking at the judgment. You must not be looking at the glory. You must not be looking at the kingdom. You must not be looking at the heaven. You must not be looking at the hell. You must not be looking at the angels. You must not be looking at the devils. You must not be looking at the saints. You must not be looking at the sinners. You must not be looking at the righteous. You must not be looking at the unrighteous. You must not be looking at the just. You must not be looking at the unjust. You must not be looking at the holy. You must not be looking at the unholy. You must not be looking at the pure. You must not be looking at the impure. You must not be looking at the clean. You must not be looking at the unclean. You must not be looking at the good. You must not be looking at the evil. You must not be looking at the true. You must not be looking at the false. You must not be looking at the real. You must not be looking at the unreal. You must not be looking at the eternal. You must not be looking at the temporal. You must not be looking at the immortal. You must not be looking at the mortal. You must not be looking at the divine. You must not be looking at the human. You must not be looking at the angelic. You must not be looking at the demonic. You must not be looking at the spiritual. You must not be looking at the material. You must not be looking at the immaterial. You must not be looking at the visible. You must not be looking at the invisible. You must not be looking at the tangible. You must not be looking at the intangible. You must not be looking at the concrete. You must not be looking at the abstract. You must not be looking at the specific. You must not be looking at the general. You must not be looking at the particular. You must not be looking at the universal. You must not be looking at the individual. You must not be looking at the collective. You must not be looking at the singular. You must not be looking at the plural. JOTTINGS.

In Camden and Chicago they call it Back-a-rat, but chaplains at the Riverside refuse to take to that.

Miss Gibbs has for sale the "American Beauty" hat, the latest style and the choice of Mary Anderson.

"Bo-ca-rat," says one with monotonous "I played with the Prince one night of course I let him do me, but I'm blooming sure I'm right." Get your lunch at Jake Becker's and "that's all right."

A fellow who wears imported plaids and inhales the cigarette, thinks he knows it all, and says "you must call it 'bo-ca-rat.'" Buy your cigarettes of C. A. Thurston and call it whatever you please.

A Common Sense Remedy.

In the matter of curatives what you want is something that will do its work while you continue to do yours—a remedy that will give you no inconvenience nor interfere with your business. Such a remedy is Alcock's Porous Plasters. These Plasters are not an experiment, they have been in use for over thirty years, and their value has been attested by the highest medical authorities, as well as by voluntary testimonials from those who have used them. Alcock's Porous Plasters are purely vegetable and absolutely harmless. They require no change of diet and are not affected by wet or cold. Their action directly on the system, without labor or business, you can tell and yet be cured while hard at work. They are so pure that the youngest, the oldest and most delicate person of either sex can use them with great benefit.

Specimen Cases.

S. H. Clifford, New Castle, Wis., was troubled with Neuralgia and rheumatism, his stomach was disordered, his liver was affected to an alarming degree, appetite fell away, and he was terribly reduced in flesh and strength. Three bottles of Electric Bitters cured him.

Edward Shepherd, Harrisburg, Ill., had a running sore on his leg of 8 years standing. Used three bottles of Electric Bitters and seven boxes of Bucklen's Arnica Salve, and his leg is sound and well. John Speaker, Catawba, O., had five large Fever Sores on his leg, doctors said he was incurable. One bottle of Electric Bitters and one box Bucklen's Arnica Salve cured him entirely. Sold at W. Plummer's Drug Store.

Spring Fever.

At this season of the year the most vigorous and hearty people often have a feeling of weariness, tired and worn out, without ambition to do anything, and many break out in pimples and boils. What you require is a mild tonic medicine that will act gently on the liver and blood, and for this nothing equals Dr. Gunn's Improved Liver Pills. They give an activity to the liver, purify the blood and by their mild tonic action, new vitality and strength to the whole system. Sold for 25 cents a box by S. J. Hodgkinson.

Now Try This.

It will cost you nothing and will surely do you good, if you have a Cough, Cold, or any trouble with Throat, Chest or Lungs. Dr. King's New Discovery for Consumption Coughs and Colds is guaranteed to give relief, or money will be paid back. Sufferers from La Grippe found it just the thing and under its use had a speedy and perfect recovery. Try a sample bottle at our expense and learn for yourself just how good a thing it is. Trial bottles free at W. Plummer's Drug Store. Large size 50 cents and \$1.00.

A Sure Cure for Piles.

Itching Piles are known by moisture, like perspiration causing intense itching, burning and smarting. This form, as well as blood, bleeding and protruding, yield at once to Dr. Bosanko's Pile Remedy, which acts directly on the pile affected, absorbs tumors, allays itching and effects a permanent cure. Sold by all druggists or mail. Cautions Free. Dr. Bosanko, Piquette, O. Sold by S. J. Hodgkinson.

For Over Fifty Years.

Mrs. WINDLOW'S SOOTHING STRENGTH has been used for children teething. It soothes the child, softens the gums, allays all pain, cures wind colic, and is the best remedy for Diarrhoea. Twenty-five cents a bottle. Sold by all druggists throughout the world.

Baby cried,  
Mother sighed,  
Doctor prescribed: Castoria!

ARK YOU MADE miserable by Indigestion, Constipation, Dizziness, Loss of Appetite, Yellow Skin? Shiloh's Vitalizer is a positive cure. For sale by S. J. Hodgkinson.

WHY WILL YOU cough when Shiloh's Cure will give you immediate relief. Price 25 cents, 50 cents and \$1. For sale by S. J. Hodgkinson.

SHILOH'S CATARRH REMEDY—a positive cure for Catarrh, Diphtheria and Canker Mouth. For sale by S. J. Hodgkinson.

"HACKMETACK" a lasting and fragrant perfume. Price 25 and 50 cents. For sale by S. J. Hodgkinson.

SHILOH'S CURE will immediately relieve Croup, Whooping Cough and Bronchitis. For sale by S. J. Hodgkinson.

FOR DYSPPEPSIA and Liver Complaint you have a printed guarantee on every bottle of Shiloh's Vitalizer. It never fails to cure. For sale by S. J. Hodgkinson.

A NASAL INJECTOR free with each bottle of Shiloh's Catarrh Remedy. Price 25 cents. For sale by S. J. Hodgkinson.

THE REV. GEORGE H. THAYER, of Portland, Ind., says: "Both myself and wife owe our lives to SHILOH'S CONSUMPTION CURE." For sale by S. J. Hodgkinson.

AN ASTONISHING CAPITALIST.

A "Gazette" Man Takes a Wealthy Stranger for a Drive and This Is What They Talked About.

A ride through the valley of the Truckee at this time would seem to give the lie to calling Nevada "the sage brush State." A GAZETTE reporter took a drive yesterday in company with a gentleman of wealth, who is seeking an investment for some of his idle money. "Why," said he, "where is the sage brush I have heard so much about?"

"On the high mountain side," replied the reporter. "Yes, I see; but your valley, it seems to me, is under a high state of cultivation and it is most certainly a beautiful valley to look upon. You say the land north of Reno is fully as good as any in the valley?"

"Yes, for it is free from rocks, is rich and will produce anything that can be successfully grown in a climate where the seasons are as pronounced as they are here. It will, if watered, produce almost an unlimited quantity of wheat, oats, barley, rye, the finest in the world—cabbage, celery, cauliflower, rhubarb, and in fact every known vegetable and cereal known to thrive in the temperate zone, and if seeded to alfalfa will produce six and seven tons to the acre and furnish the finest pasture known the balance of the year," was the reply.

"And a county such as you have here is begging for settlers?" was the astonished question. "Yes, sir, humiliating as the acknowledgment is, I must make it," answered the GAZETTE man.

"It certainly seems to me that the fault is your own, for most assuredly if it was generally known throughout the world what chances you offer to idle capital and the home-seeker, they would take advantage of it at an early day," was the reply.

"I will be frank with you," answered the newspaper representative. "Nevada has always been looked upon as strictly a mining State. Until the last few years no attention whatever has been paid to its agricultural possibilities. The men who have been at its helm have taken from our hills untold millions of gold and silver and have invested the surplus in other States, not dreaming that there was anything in this, outside of mining properties worthy the attention of their great minds, so the wealth Nevada has produced has gone to reclaim California's arid wastes, develop the mines of Alaska, make beautiful the city of San Francisco, build railroads in the South, while Nevada money has cut no narrow swath in the trade of New York, and the fashionable world of London and Paris has been made more so by the extravagant expenditure of this State's wealth."

"I want to verify your story of the possibility of Washoe country offers idle capital," was the reply as the gentleman stepped off the Riverside Hotel.

All right, that won't be hard to do. Good afternoon."

THE BREAKFAST STATION.

On the Road to Belmont When Buel Haa the Camp.

It was just after eating a good dinner, at a well known hotel in Reno, that a coterie of old timers, in attendance upon a Grand Lodge in session that day, were seated in the office, puffing the smoke in lazy curls from pretty good cigars, when they began comparing notes on the hotel fare of early times. They were a venerable looking set of men, such as Tom Tennant describes as a lot of grey headed old cranks that hold a convention of their own once a year, and cast their ballots in a hat, without any regard to the Australian system. Each one had an experience to relate, somewhat after the fashion of Methodists at camp-meetings, and each listened to the other and waited with some impatience to say "That reminds me," and therewith would follow a tale. The pioneer stews and boiled hominy and self-rising biscuit, hash, beans and dried apple pie of the early days, were all used to illustrate the subject and the old fellows smoked their pipe and beans, and sour dough sinkers of their own camp cooking. Among the unique experiences one said that he was one of a stage load traveling all night in central Nevada, in extreme cold weather, when blanket overcoats and buffalo robes were tucked around them to prevent freezing. At an early hour in the morning they reached the eating station and made a rush for the breakfast-table. The table was already set, but no food upon it. The boss ordered them to "fall in" and as soon as each got a place on the long pipe benches, he went around the table rapidly, putting the single inquiry to each, "Oyster soup?" Each would answer "yes" in surprise and then look at a neighbor and say "Well, I be d—d, what next." The watery soup of McMurray's cove oysters was duly served and relished because it was hot, and the breakfast, which was a good one for hungry, half frozen men, wound up with rice pudding, and as the boss collected a dollar from each, he cheerily said, "Glad to have you call again."

Bishop Leonard.

The Salt Lake Tribune of Friday says: Bishop Leonard leaves to-day on a two weeks' Nevada trip for rest and to look over that part of the diocese. He has had an immense amount of work to do since Rector Putnam's death, and will continue in charge of St. Mark's until this fall, when a new rector is chosen.

A Milky Way.

Yesterday morning as A. T. Rice was in at the Riverside Hotel taking something stronger than milk, his milk team started to run and scattered the snowy white fluid all over town. They were finally captured, when it was found that the wagon was badly smashed. Moral: Drink milk.

Visiting the Insane.

Governor Colcord, State Controller Horton, and State Treasurer John Egan, came over from Carson on the noon local and visited the Insane Asylum this afternoon. They will remain over this evening to see "Mr. Barnes of New York."

A MODEL FARM.

What Barney Clow Has Accomplished in Three Short Years.

If any one doubts the productiveness of the soil in this country or the superior advantages it offers for the thrifty and industrious man who does not care to spend a lifetime in making a home, let him visit the ranch of Barney Clow on the foothills just west of town. Three years ago it was as uninviting a spot as any that can be found in Warm Springs, Lemmon or Prosser valley, north of Reno. In fact it was a hill covered over with scrubby sagebrush and not a green thing did the land ever produce. One unacquainted with the soil would not have taken it as a gift, but to-day the 120 acres is as beautiful as any in the valley. In three years' time Mr. Clow has accomplished on his hillside farm what it would have taken ten or fifteen years to accomplish on any unimproved piece of land in almost any other State in the Union. He has fenced it, cleared it of sagebrush, built a two-story house of modern architectural beauty, sown a large area to alfalfa, and it will produce fully seven tons to the acre this year; set out shade and ornamental trees, has a half an acre set to strawberry vines, raspberries of several varieties, currants, English gooseberries, blackberries, grapes, etc., and will produce fruit this season. Besides these, Mr. Clow has planted fruit trees galore, consisting of peach, apple, plum, pear, mulberry, chestnut, walnut, cherry, etc., and all are thrifty and doing splendidly. He also has one of the most promising gardens on the coast, with potatoes, peas, beans, corn, beets, carrots, tomatoes, melons, onions, cabbage, and in fact almost every kind of vegetable known, and the GAZETTE will venture the assertion that Mr. Clow will make more clear money off the five or six acres planted to garden truck than the farmer will who has 320 acres in grain or alfalfa—another proof that the man with the largest farm does not always make the most money. Mr. Clow keeps three or four cows, several hogs, a healthy flock of chickens, thereby raising much of the greater part of what takes to support a family; in fact, a little tea, coffee and sugar is all he needs buy, for he raises his own flour. His farm is certainly a model one, and a visit of inspection would well repay the doubting Thomases as to Washoe possibilities.

THE SCHOOL FOR GIRLS.

Tuesday's and Wednesday's Program an Interesting One.

Bishop Leonard is expected at the School for Girls this evening. He will hold ordination services at Trinity Church to-morrow morning and be present at the closing exercises of the school on Tuesday night and Wednesday morning. The program for Tuesday night will be devoted to the reading of essays by four young lady members of the Senior Class. The subject will be Nathaniel Hawthorne. There were seven contestants and the essays were sent to the east to be read and graded according to the merits of each one, and the four bearing the highest grades are to read Wednesday morning at the school at 9:30, and the one receiving the highest grade is to receive the medal. On the same evening will be the art exhibition and the awarding of prizes. All friends of the school are cordially invited to be present.

New Postoffice.

A new postoffice has been established at Clinton at the mill of the Pacific Lumber and Wood Co. The office is called Burkhalter and W. M. Burkhalter has been appointed postmaster.

The Truckee Republican is informed that the postoffice at Bronco is to be changed to Cuba and removed to the latter station, one mile up the river and D. M. Dysart is to be postmaster.

A Rare Mineral.

From the weekly mining report of D. H. Jackson, Supt. of the Holmes mine at Candelaria the following extract illustrates the rarity of the new mineral, veritite, heretofore referred to by the GAZETTE. It says: The Eighteenth level—We are taking out some sulphuret ore on this level, saying \$25. The small streak of veritite we found on this level seems to have given us a new mineral. We have not found any during the past week.

To-Morrow Night.

The Department of Music of the School for Girls will give an exhibition to-morrow evening for the benefit of the organ fund of the Episcopal Church. The rehearsal will be under the direction of Miss Quail, which is all that is necessary to say of its merit. Seats are going very fast and those who intend going should engage them at once. It will be an event that you cannot afford to miss.

Another Life Killed.

The Chloride Belt of the 13th inst. says: Chris Sennar and E. M. Snapp of Tule Canyon are in town. The former gentleman informs us that the Irwin nugget, found a couple of weeks ago, was worth \$35 instead of \$500. He showed us a handsome nugget found in the Canyon recently, worth \$26 32.

Tall Oaks from Little Acorns Grow.

"Tall oaks from little acorns grow," says the Chloride Belt of the 13th inst. says: Chris Sennar and E. M. Snapp of Tule Canyon are in town. The former gentleman informs us that the Irwin nugget, found a couple of weeks ago, was worth \$35 instead of \$500. He showed us a handsome nugget found in the Canyon recently, worth \$26 32.

San Francisco Meat Market.

Following are the rates for whole carcasses from slaughterers to dealers: BEEF—First quality, 6c; second quality, 5c; third quality, 4c; 4c 1/2c. PORK—Dressed, 5c; 5c 1/2c for small. MUTTON—Quotable at 7c 1/2c. LAMB—Quotable at 8c 1/2c. PORK—Live Hogs, on foot, grain fed, 4c 1/2c; light, 3c 1/2c; dressed Hogs, 8c 1/2c.

Highest of all in Leavening Power.—U. S. Gov't Report, Aug. 17, 1889.

Royal Baking Powder

ABSOLUTELY PURE

PERSONALS.

Professor Ring spent Sunday in Reno.

C. A. Bragg left this morning for Long Valley.

N. H. A. Mason arrived last night from Mason Valley.

Judge Bigelow returned last evening from a visit to Elko.

Mrs. J. R. Bradley returned from California this morning.

N. A. Hummel returned to Tulare, Cal., on last night's train.

Professor W. McN. Miller left Saturday night for San Francisco.

C. C. Wallace of Eureka arrived in Reno last evening and left to-day.

Mrs. Charles Kaiser and son of Churchill are guests at the Riverside.

S. Wenban, a passenger from San Francisco this morning going out to his mine at Cortez.

D. A. Woodward of Modesto, Cal., arrived in Reno last night, and comes with a view of locating.

C. H. Lewis of Wadsworth was a guest at the Palace last night, returning home from Truckee.

S. Turner of Gold Hill, who has been visiting Reno a few days, returned home this morning.

J. W. Dorsey of Elko arrived last night and was a guest at the Riverside Hotel, but returned home this morning.

Dana Brown of the Carson Mint returned from a visit to Napa yesterday morning. Mrs. Brown will remain in California for a while.

G. W. Mapes went to Honey Lake this morning to inform his brother of the serious illness of his daughter, Miss Lottie Mapes, who is sick at St. Clair.

W. J. Westerfield of Dhyton came to Reno on Saturday evening and met his wife on her return from Iowa, where she has been on a visit. They went home to Dayton on Sunday morning.

General J. R. Kittrell, now of Modesto, is in Reno to-day hobnobbing with old friends. He is on his way to Hawthorne on professional duty before the court there. The General is looking extremely well and overflowing as usual with unctuous good humor.

Mrs. Jane Snow, an aunt of J. L. Wines, is visiting her relatives in Reno for a few days. Her home is in St. George, Utah, but she has just returned from a trip to New York and afterwards to San Francisco. Mrs. Snow is an elderly lady, but finds no difficulty in making long journeys alone.

Miss Lottie Mapes is lying dangerously ill of typhoid pneumonia at St. Clair. Her aunt, Mrs. G. W. Mapes, and Dr. Hogan are with her doing all in their power to break the fever of the dread disease, and the GAZETTE, in common with all the other friends of Miss Lottie, sincerely hopes they will be successful.

BREVITIES.

Local and General Intelligence.

See 50-cent column for lost revolver.

The friends of Miss Quail are cordially invited to attend a reception given by the Alumnae at the Seminary from 7 to 10 o'clock, Thursday evening.

The east bound overland was 30 minutes late this morning. Attached to the train were three cars of fruit, which accounts in some measure for the delay.

Capt. Griffen has uncovered a valuable ledge in his Peavine mine. The rock assays \$500 per ton, but the Captain says he is not ready to show it to the world yet.

Why does that man swear like a pirate and roar with rage and snort? Because his last year's linen trousers are just a foot too short. Go to John Sunderlands and get another pair of trousers to fit.

The Inyo Independent of the 12th inst. says: Unless we have warm weather soon the corn crop will very likely be a total failure. Crops of wheat, barley and oats and also the hay crop will be larger than usual.

The Chloride Belt of the 13th inst. says: Teamsters state that the earthquake shocks last week did some damage to the Miller mountain road. At different places boulders and loose rock were dumped into the roadway.

The graduating class of sixty-five cadets at the Military Academy received their commissions as Second Lieutenants on Friday at the hands of Secretary of War Proctor, who delivered an address full of good advice to young soldiers.

Candelaria, not satisfied with its earthquake reputation, has now another sensation in that of a haunted house, formerly a maison de joie. Raps and knocks and sounds of running water are the manifestations that puzzle the people.

The citizens held a meeting Saturday night, appointed committees and are going ahead with the Fourth of July celebration. The program and names of those comprising the committees will be published in the GAZETTE at an early day.

A MILLION TONS OF SNOW.  
The Fearful Rush of an Avalanche From Montana Peak to Gale.

About two thousand feet from the Denver & Rio Grande depot there is a mass of snow in one lump which contains about one million tons of water.

The mass represents a snowslide which came from the summit of Kendall mountain the night of February 23. The point where the snow broke from the apex of the mountain is probably two and a half miles from the railroad track, and the slide made the run—according to witnesses who heard the crash at the start and the crunch when it stopped—in less than two minutes.

Monday night was a terror. The mercury had shrunk away down in the bulb, and everyone expected to see the climax of the storm. About 8 o'clock great banks of snow began to accumulate and pile up in fantastic shapes on the mountain tops. Then came puffs of wind as strong as a gale, and miniature whirlwinds hurried here and there all over the park, toying with the loose boards and sending up columns of sporty snowflakes, says the Silverton (Col.) Miner.

Higher and thicker and darker the cloud battlements piled over the Animas canyon, while those up the Animas, like castles of light riding on billows of resplendent silver, loomed in magnificent grandeur. Over and among those aerial mountains the moon peeped through fitfully and cast in a flood of dazzling light.

By 9 o'clock the storm was at its height. The wind tore through the foliage on the hillsides, and, battering at the buildings, hurled defiance at mankind. Serpentine lines of glittering fire gleamed from between the rents in the clouds, and loud detonations from the battlements on high proclaimed the march of the storm.

It was about midnight when, above the roar of the elements far above the clouds upon old Kendall, the loud "crack-ck" was heard. Then a "crooch, crooch, crooch," and then the whole mountainside seemed to be coming with a fearful and indescribable crash. Thousands of tons of snow were shot out of that wide space above timber line and piled into Idaho, gulch, and brushing down everything before it.

Trees, rocks, banks of frozen earth—all shared in a common fate, and to see that monster coming, as it seemed, from the clouds, would have been a grand sight. There was no stop to the colossal mass, which it struck the flat. Making its own road as it coursed its race, filling in all declivities, it continued on its mad race until it reached the river.

Instead of stopping there, it smeared a bridge for itself and continued over the railroad track, carrying with it two telegraph poles, the Y and spread itself finally over the town site, within two hundred yards from the main street of Silverton.

Such a slide has never before been seen here, and to those who have never seen one and are skeptical of its tremendous energy, we invite their attention to this one before going elsewhere. Once before in the history of this town the Idaho gulch slide came down, and that was in 1879, when it nearly reached the river. The snow now lies six feet solid on the railroad track.

At the foot of the gulch it is at least one hundred and thirty feet deep. It is full of timber—trees from six inches to two feet in diameter broken into splinters, rocks weighing tons are scattered through it, while the entire body is as solid as ice itself. People go every day to view this giant of the mountains, and it will continue to be a source of interest until it melts beneath the rays of our July sun.

A CRAFTY INVENTOR.  
The Reward He Asked for Inventing the Chessboard.

It is related of the inventor of the game of chess that, on being promised by the king who first taught the game that he should have any reward he might ask for, he meekly replied that he would be content if the king would give him one kernel of wheat on the first square, two on the second, four on the third, eight on the fourth, and so on, doubling up to the sixty-fourth square. The king gladly acceded to this seemingly modest request, and ordered his attendants to bring in the wheat, which they began to do; but, to the astonishment of the monarch, it was found that there was not wheat enough in the whole dominion to pay off the crafty inventor. A mathematician who claims to have been figuring on this chessboard curiosity says that to fulfill the king's promise it would take 30,027,097,184,485 bushels of wheat—allowing 600,000 kernels to each bushel. This prodigious amount would cover the states of New York, Pennsylvania, New Jersey and Delaware all over with wheat to the depth of a mile and a quarter. In a few words here is the exact number of wheat kernels the chess inventor asked for—9,687,268,780,964,775,168. Figure it up and prove or disprove it.

Dead Cat Anyway.  
A small boy had a dog that was rough, as most small boys' dogs are, and a kitten, just as all cats are. One day the small boy came nonchalantly into the girl's presence and after some desultory conversation, he said: "You know my dog Barca, and your cat 'Darling'."

"Yes," "Well, my dog had a piece of meat, and he thought your cat was going to take it away from him."

"Thought!" exclaimed the wise girl. "What makes you say the dog thought? You know dogs don't think, they instinct."

"Well," said the boy, "I don't care whether he thought it or whether he instinct it, but anyhow he killed your cat."

A Cool Engineer.  
A cool-headed engineer prevented a disastrous collision near West Point, Miss., the other day. The telegraph operator neglected to hold a freight train as directed, and it was pulling out of the station when a passenger train was discovered rounding a curve at the rate of fifty miles an hour. The engineer of the freight jumped, making no effort to stop his engine. The engineer of the passenger train, however, brought his train to an abrupt standstill. Leaping from the cab he jumped on the freight engine and stopped the train just two feet from his own.

FIRST CHINESE LOCOMOTIVE.  
Made Out of Scrap Iron by Native Workmen in 1881.

In 1878 coal mining was begun at Tongshan, about eighty miles northeast of Tien-Tsin, says "Railways in North China." It was arranged to build a railroad twenty-nine miles long from the mines to the nearest navigable water—that is, to Lutai, on the Peh Tang Ho. It was then, in 1878, that Mr. Kinder went out as a resident engineer. Before the railroad work could begin the authorities had decided to operate a canal twenty-one miles long to a point within seven miles of the colliery, and to connect the canal and colliery by a tramway to be worked by mules; this was done.

Fortunately, the gauge of four feet eight and one-half inches was, after much difficulty, sanctioned, but it was stipulated that no locomotives should be used, but before the track was completed this had virtually become a dead letter. The country was easy, but several sharp curves were introduced to avoid graves. Subsequently the owners of these graves objecting to the noise so near the bones of their ancestors, allowed the remains to be removed and the line was rectified. This track was laid with thirty-pound steel rails, flange section, and ballasted with broken limestone.

During the winter of 1880-81 Mr. Kinder built a locomotive in the shops of the company. It was built entirely of odds and ends which could be procured without attracting attention. The boiler belonged to a portable winding machine. The wheels were thirty-inch Whitney chilled wheels, which had been bought as scrap castings, and the frames were made of channel iron. Before this was finished its preparation became known and orders were issued that it should be stopped.

Eventually, however, through the offices of Li Hung Chang, Mr. Kinder was allowed to finish the locomotive, which was christened the "Rocket of China," just one hundred years after the birth of George Stephenson. November 8, 1881, this engine took a party of officials over the line at a speed of twenty miles an hour, and after that the objections to locomotives were virtually abandoned. Mr. Kinder says there is little doubt that if this engine had not been built as it was, in China and by native workmen, it would never have been allowed to run, and the use of locomotives would have been postponed for many years.

THE RIVERBIDE IS OFFERING new attractions to the guests every day. THE ROOMS are well ventilated and lighted and sunny.

THE BOARD is of the best, both in quality and quantity. The finest meats, fish and fowl in the market.

THE BAR is second to none on the coast. Give us a call and be convinced.

Sheriff's Sale.

JOHN W. SLAVEN, PLAINTIFF, VS. James Mayberry and his wife, Kate Mayberry, and Thomas Mayberry, Defendants.

Under and by virtue of the writ of execution and decree of foreclosure and sale, issued out of the District Court of the State of Nevada, in and for the County of Washoe, on the 5th day of June, A. D. 1891, in the above entitled action, wherein John W. Slaven, the above named plaintiff, obtained a judgment and decree of foreclosure and sale against James Mayberry and his wife, Kate Mayberry, and Thomas Mayberry, defendants, on the fourth day of June, A. D. 1891, for the sum of \$1,337.30 and \$20.45 cost of suit, together with \$86.87 attorney's fees and accruing costs, and interests, I am commanded to sell all the certain lots, pieces and parcels of land situated within the County of Washoe, and State of Nevada, and described as follows, to-wit:

Lot 5 and the S. W. 1/4 of the S. W. 1/4 of Section 16, and the S. W. 1/4 of the S. W. 1/4 of the S. W. 1/4 of Section 17, the N. 1/2 of the S. W. 1/4 of the S. W. 1/4 of the S. W. 1/4 of Section 18, lots 1, 2, 3, 4, and 5, of Section 18, lot 1 of section 19, and the N. 1/2 of the S. W. 1/4 of the S. W. 1/4 of the S. W. 1/4 of Section 20, all in Township 19 North, Range 18 East, and the N. 1/2 of the S.
